SKYLAR KNAPP

WEB DEVELOPER | AUTOMATION BUILDER

Rock Hill, SC • (980) 585-9609 • sknapp1991@gmail.com • github.com/sknapp1991 • sknapp1991.github.io

SUMMARY

Self-taught web developer and automation builder who ships production software: client e-commerce and booking sites, an AI-assisted content automation pipeline, and a programmatic resume-generation system spanning 90+ style combinations. Background in technical support leadership and skilled-trades field work brings strong troubleshooting, client communication, and self-directed technical learning to every project.

SKILLS

- JavaScript, HTML5, CSS3, Node.js, Python, PowerShell, FFmpeg
- Responsive Web Design, Firebase, GitHub Pages, Git & GitHub
- Claude Code / AI-Assisted Development, Prompt Engineering & LLM Integration
- Client Communication, Technical Troubleshooting, Team Training & Coaching

PROJECTS

Resume Builder | Resumes by Skylar
github.com/sknapp1991/resume-template-generator | resumesbyskylar.com

- Built a Node.js system that programmatically generates ATS-friendly, print-ready resumes across 7 layouts and 13 color palettes (90+ combinations), plus a catalog generator for browsing every version.

Business Websites | Client storefront & booking sites
github.com/sknapp1991/business-websites

- Built a Firebase-backed e-commerce storefront with an admin inventory panel and Venmo/Cash App checkout flow, plus a separate booking site for a second client.

RedditTales336 | Automated content pipeline
github.com/sknapp1991/reddit-tales-336

- Built a multi-stage automation pipeline: Reddit story scraping, AI script rewriting, local text-to-speech voiceover, and FFmpeg video rendering with synced captions.

AI Coloring Book Generator | AI-assisted publishing pipeline
github.com/sknapp1991/coloring-book-generator

- Built an automated pipeline for generating print-ready children's coloring books using AI image generation and PDF assembly.

PROFESSIONAL EXPERIENCE

HVAC Installation Technician | Indian Trail Air & Heat *(Oct 2026 – Current)*

- Install, service, and troubleshoot residential HVAC systems; read technical schematics and diagnose system issues on-site.

HVAC Installation Technician | Fulmer's Heating & Cooling *(Apr 2025 – Sep 2026)*

- Installed and serviced residential heating and cooling systems; managed client communication and scheduling in a field-service environment.

Supervisor of Technical Support | General Motors, Charlotte, NC *(Aug 2021 – Apr 2025)*

- Led a team of 15+ technical support specialists; built training programs and coached agents to improve performance and retention.

Technical Support Specialist | General Motors, Charlotte, NC *(Oct 2020 – Aug 2021)*

- Provided technical support for connected-vehicle services (radio, internet, Bluetooth, account issues); escalated and documented recurring issues for development teams.
