Skylar R. Knapp

Rock Hill, SC | (980) 585-9609 | knappstadawg@yahoo.com | github.com/sknapp1991 | sknapp1991.github.io

SUMMARY

Self-taught web developer and automation builder who ships real projects: client business websites, an e-commerce storefront, and AI-assisted content automation pipelines. Background in technical support leadership and skilled-trades field work brings strong troubleshooting, client communication, and self-directed learning to every project.

SKILLS

Front-End: HTML5, CSS3, JavaScript, Responsive Design

Backend & Hosting: Firebase, GitHub Pages, Cloudflare Tunnels

Automation & Scripting: Python, PowerShell, FFmpeg

AI-Assisted Development: Claude Code, Prompt Engineering, LLM Integration

Tools: Git, GitHub, VS Code

PROJECTS

- **Business Websites —** Client storefront & booking sites — Firebase backend, admin panel, payment flow *(github.com/sknapp1991/business-websites)*
- **RedditTales336 —** Automated content pipeline — Reddit scraping, AI scripting, local TTS, FFmpeg video rendering *(github.com/sknapp1991/reddit-tales-336)*
- **AI Coloring Book Generator —** AI-assisted publishing pipeline for print-ready children's books *(github.com/sknapp1991/coloring-book-generator)*

EXPERIENCE

HVAC Installation Technician — Indian Trail Air & Heat *Oct 2026 – Present*

- Install, service, and troubleshoot residential HVAC systems; read technical schematics and diagnose system issues on-site.

HVAC Installation Technician — Fulmer's Heating & Cooling *Apr 2025 – Sep 2026*

- Installed and serviced residential heating and cooling systems; managed client communication and scheduling in a field-service environment.

Supervisor of Technical Support — General Motors *Aug 2021 – Apr 2025*

- Led a team of 15+ technical support specialists; built training programs and coached agents to improve performance and retention.

Technical Support Specialist — General Motors *Oct 2020 – Aug 2021*

- Provided technical support for connected-vehicle services (radio, internet, Bluetooth, account issues); escalated and documented recurring issues for development teams.
